

Assessment 2 (20 marks).

Due 14th August 2023

Create a website with HTML, CSS, and Javascript

Your Approach is entirely up to you. However, follow the guideline below.

A web application project from the list below has been selected for your group to develop.

1. A quiz app that contains at least 50 objective and subjective questions. (GROUPS: 1,5,9,13)
2. Allocate groups having n^{th} Members per group for a class size of 150 students. (GROUPS: 2,6,10)
3. Allocate Seat Numbers to 150 Exam students. (GROUPS: 3,7,11)
4. Allocate 150 Students to n^{th} Number of Project Supervisors. (GROUPS: 4,8,12)

Note: n^{th} means the user of the web application should be given the option of

- (1) choosing the number of members each group can have.
- (2) choosing the number of Project Supervisors.

Allocation of marks

Interface design (HTML/CSS) **(5 marks)**

JavaScript code (JavaScript) **(5 marks)**

As a team, present a Single Flowchart to describe the logic that informed the JavaScript Code. **(10 marks)**

Alright, make yourselves proud!
